Accem through the [Volunteer Training and Promotion program](#) and in collaboration with the [Intercultural Awareness and Participation program of Migrant families at school](#) has developed this audio guide.

A tool for boys and girls who have been limited in their space for interaction and learning due to the COVID-19 crisis, can free their imagination and strengthen their creativity, without leaving home.

Through the different stories and characters that you will find in each audio account, boys and girls will practice active listening, expand their vocabulary and give free rein to their imaginations.

The guide is available in Spanish and English with the aim of eliminating the barrier that the use of a single language can entail and thus expanding the possibilities of reaching a greater number of girls and boys.

The adventure begins, choose your favorite story, click on the image and discover wonderful stories.

## "Itsy Bitsy Spider"

"Itsy Bitsy Spider" (also known as Incy Wincy Spider) is a popular Fingerplay Nursery Rhyme that describes the adventures of a spider as it ascends, descends, and re-ascends the downspout or "waterspout" of a gutter system (or, alternatively, the spout of a teapot or open-air reservoir)

*The colorful monster, by Anna Llenas*

The colored monster does not know what's wrong with him. He has made a mess of emotions and now it is his turn to undo the mess.

## The Little Gluttonous Caterpillar by Eric Carle

The little caterpillar was extremely hungry. So this whole story was spent eating, going page after page. Until finally it became, like all caterpillars, a butterfly.

## The Lion Flower

Is a funny story for babies, toddlers, children and kids all ages. A weepy flower is looking for a place in the forest to live: woods, mountain, lake, road.

## The little Prince, by Saint-Exupéry

I lived like this, alone, with no one to truly talk to, until I had a breakdown in the Sahara desert six years ago. Something was broken in my engine. And since I had neither a mechanic nor passengers, I decided to carry out, alone, a difficult repair. It was, for me, a matter of life and death. I had water for barely eight days.

*Candy Pink, by Adela Turin, Ed. Illustrations by Nella Bosnia.*

In the herd, all the elephants are pink, except Margarita. And soon you will discover that those of their sex are prohibited from doing things reserved for males. By not accepting this tradition, she will show her colleagues that equality is not a utopia.

The cow that laid an egg  
Author: Andy Cutbill, illustrations by Russell Ayto

The Macarena cow is sad until one day she lays an egg.

## The three Little Pigs

In the heart of the forest lived three little pigs who were brothers. The wolf was always following them to eat them. To escape the wolf, the little pigs decided to make a house for themselves. The little one made it of straw, to finish earlier and be able to go play.

The middle one built a small wooden house. Seeing that his little brother had already finished, he hurried to go play with him.

The oldest one worked in his brick house.
